

Experience the Cnam's MOOCs!

The Cnam has traditionally offered adults distance learning courses to improve their knowledge and skills or to obtain a degree, from A-levels to postgraduate and engineer. Now, the Cnam asserts its leading position in e-learning by offering numerous MOOCs (massive open online courses).

Drawing on such experience and in the spirit of previous innovations initiated in 1963 with Sunday morning TV courses, the Cnam is now diversifying and complementing its training offer with MOOCs (free online courses, open to all).

✚ Register to **the Cnams's MOOCs!** Some of them are offered in English version.
