

Cnam Entreprises

Cnam Entreprises is the nation-wide structure of the Cnam supporting projects for the development of competencies and knowledge for your members in all types of companies and organizations both private and public.

It is based on the national offer of qualification, training and service and on all the resources of the Cnam; a public establishment for higher vocational education with:

- teams of teachers coming from both the business and the academic sectors;
- professionals of certification engineering, training and project management;
- a Center in each region and each community or French overseas territories.
