

Library

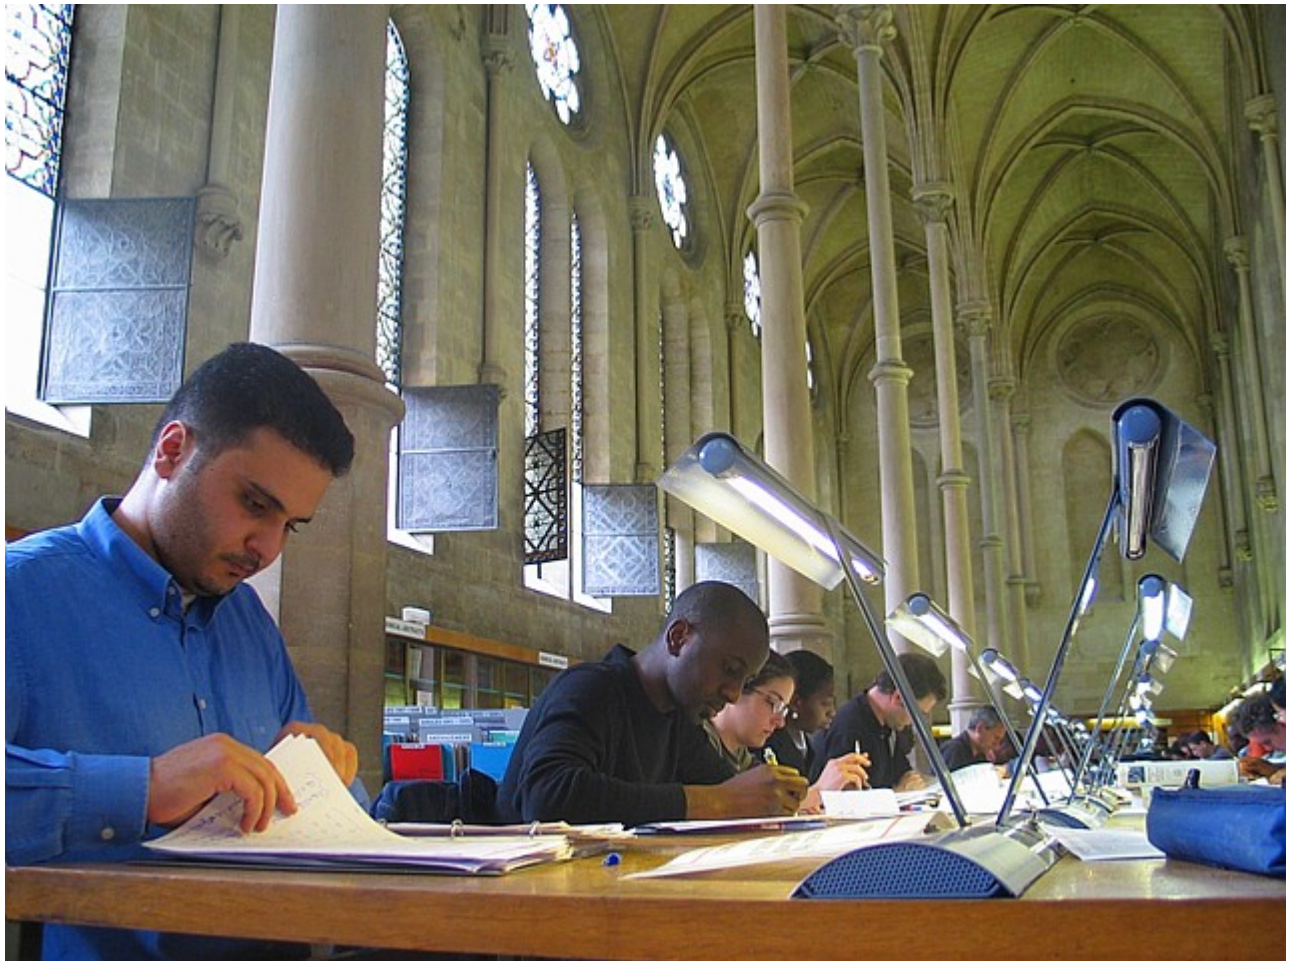

The Cnam libraries and documentation Centers propose collections on all supports, in the fields of education and research of the establishment. They provide **equipped workspaces for individuals or groups**. Training is provided in information retrieval.

The central library of the Cnam houses **a remarkable heritage collection**, organized in four sections:

- the old collection, consisting of some 8 000 volumes (XVth - XVIIIth century)
- the XIXth century collection (some 20 000 documents and over one thousand periodical titles)
- special collections
- archives and manuscripts

Printed works are recorded in the library catalogue, manuscripts and archives in **Calames**.

A part of the heritage documents is accessible in our digital library, the **Cnum** (Conservatoire numérique des arts et métiers) .
